

Antique Homestead Flooring

Product Description

Antique Homestead is our fastest growing flooring. It's popularity stems from the combination of colors and textures which combine to create a flowing and riveting look. Beech and Maple make up some of the species, but you may also find birch, ash, elm, cherry, hickory, walnut or more. The name is derived from the early homesteaders who cleared the land and built their homestead from the wood, regardless of the specie.

- ◆ Specifications are designed to create an overall appearance of a floor and do not always apply to each individual board.

- ◆ Availability-This product is available on an accumulation basis only. Sizes and quantities may be more limited than our other reclaimed woods.

The unique distinctiveness of a reclaimed wood floor is generally what makes it so desirable. A sample, photograph or description of a particular type of wood flooring may demonstrate the general characteristics. The sample, photograph or description may not necessarily be representative of the product actually delivered due to the great variability in color, grain, texture, sign of previous use, etc.
