

# Historic Oak Flooring

## Product Description

The evidence of previous use in Historic Oak Flooring may include weathering, nail holes, small bolt holes and insect tracks. The enriched patina and attractive checking patterns set this product apart from other reclaimed wood floors. When these elements are combined with the natural beauty of the wood, you're ensured a breathtaking floor. Historic Oak Flooring looks authentically dated and fits well into many design schemes from mountain to formal, Tuscan and adobe.

The unique distinctiveness of a reclaimed wood floor is generally what makes it so desirable. A sample, photograph or description of a particular type of wood flooring may demonstrate the general characteristics. The sample, photograph or description may not necessarily be representative of the product actually delivered due to the great variability in color, grain, texture, sign of previous use, etc.
